

Kavin's Coding Adventure

About Me

Hello! I'm Kavin, a 12-year-old coding enthusiast with a passion for football, cubing, and turning ideas into digital reality.

Coding Skills

- HTML Wizardry: Crafting the foundation of the web with HTML.
- CSS Sorcery: Styling websites to make them visually appealing and user-friendly.

Projects

Football Stats Website

- Developed a website to track and showcase football stats for my favorite teams.
- Used HTML for structure and CSS for an eye-catching design.

Rubik's Cube Solver

- Created a program to solve the Rubik's Cube using code.
- Applied logical thinking and problem-solving skills.

Learning Journey

Excited to embark on a JavaScript learning adventure to add dynamic functionality to my projects.

Hobbies

- Football Fanatic: Whether playing or watching, football is my game.

- Cubing Maestro: Solving Rubik's Cubes at lightning speed.
- Code Explorer: Navigating the digital realm with HTML, CSS, and soon, JavaScript.

Let's Connect!

Feel free to reach out for coding collaborations, football discussions, or just to share cube-solving strategies.
